

Cognosos Guardian Staff Badge

The Cognosos Guardian Staff Badge will send an alert and bring rapid assistance to anyone in a violent situation or at risk for potential assault at the press of a button.

Features and Benefits

- A single button press sends an alert to the Cognosos network
- Button is designed to avoid accidental button presses
- Dedicated backhaul with prioritized messaging
- Haptic buzz when the button is pressed sends a confirmation to the users that the alert was sent - no audible sounds are heard to avoid escalations
- Status check button allows users to check the battery level and network availability
- High visibility yellow on the back with white firefly to provide visibility even in low light situations
- White front mimics a staff access badge to blend in and reduce escalations
- Can be used indoors and outside in beacon enabled pathways and parking lots/garages
